

## Shironda AA

5 legs audio/video table. Implementable modular structure.

Innovative design with great aesthetic impact.

Double side shelf dedicated to analogical or digital source.

Adjustable spikes to fight the vibrations and for a perfect setting.

Massive base disk to protect delicate surface like parquet.

Decoupling by o-ring and gum washer

Completely customizable by on-line configurator.

### Technical data

**General description:** 5 legs audio/video table with double side appendage. Modular structure made of solid stainless steel. Adjustable spikes with massive base disks. Innovative design.

**Materials:** Structure made of stainless steel AISI313. Shelves in MDF or multilayer wood or Plexiglas.

**No. of shelves:** From 2 up to 4 and two side shelves.

**Thickness of the shelves:** 25 mm / 1"

**Height between shelves:** 260 mm (10"  $\frac{1}{4}$ ) or 305 mm (12"), between first and second shelf; from 95 mm (3"  $\frac{3}{4}$ ) up to 350 mm (13"  $\frac{3}{4}$ ) for the other shelves

**Total height of side shelf:** 285 mm / 11"  $\frac{1}{4}$

**Overall dimensions:** variable – maximum 2480 x 1105 mm / 97"  $\frac{3}{4}$  x 43"  $\frac{1}{2}$  (W x D)

**Useful size:** Two place 500 x 500 mm (20" x 20") for each shelf (excluded top and side shelves)

**Useful size of the top shelf:** 1140 x 565 mm / 45" x 22"  $\frac{1}{4}$  (W x D)

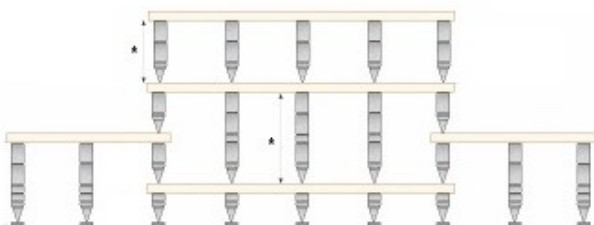

**Useful size of the side shelves:** About 520 x 500 mm / 20"  $\frac{1}{2}$  x 20" (W x D)

**Max loaded:** 140 Kgs each shelf - 80 Kgs for each side shelf

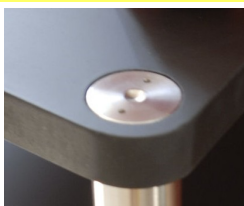

**Decoupling:** By gum o-ring

**Note:** Supplied in kit - Expandable

\* variable height
